BROCHURE

Nice To Meet You!

At Srijbosch Acrylics Unlimited (SAU), we are passionate about turning your visions into reality. With over 30 years of experience, we specialize in creating custom financial tombstones, deal toys, awards, and business gifts. Our Amsterdam-based team combines traditional craftsmanship with modern techniques to deliver high-quality, personalized products. We pride ourselves on our innovative approach, attention to detail, and commitment to sustainability. Whether you're celebrating a significant achievement or looking to strengthen your brand, SAU is your trusted partner in creating memorable, lasting impressions.

Every deal tells a story.

Our tombstones capture the milestones that define your success.

Seal That Deal Today

Financial tombstones and deal toys come in many ways, each crafted to commemorate a significant milestone or achievement in the world of finance and business. Over the years, we've meticulously curated a diverse collection of tombstones, encapsulating various deals, mergers, acquisitions, and successes across multiple industries. These commemorative pieces serve not only as symbols of accomplishment but also as timeless reminders of the dedication, teamwork, and innovation that drive the global economy forward.

Excellence For every budget

Located in Amsterdam, Strijbosch Acrylics Unlimited (SAU) offers seamless communication, quick production, and efficient shipping within Europe.

Our creative designs bring your vision to life, making each award unique and reflective of your brand's identity.

Order directly from our Amsterdam facility for transparent pricing and no surprise shipping costs. We handle urgent requests with short lead times, delivering high-quality products quickly. Enjoy the craftsmanship and reliability of our products, made in Amsterdam.

Sustainability At Its Core

We pride ourselves on being the leading supplier in the market for green deal toys, proudly made in Europe. Our unwavering commitment to sustainability sets us apart, providing our customers with the best products and services for a greener future.

There are many possibilities to create a sustainable tombstone or green deal toy. For instance by using recycled acrylic, biodegradable materials such as wood or add an element to your tombstone with infinitely recyclable aluminum. Did you know our 3d prints are made from biodegradable filament as well and we have colored acrylic sheets in stock, remade from our own acrylic waste?

MATERIALS

Materials | Virgin acrylic

Virgin acrylic, crystal-clear and durable, offers endless customization options. Fully recyclable and perfectly transparent, it combines sustainability with a refined, high-quality look for any design.

Materials | Recycled acrylic

At SAU we have our own line of recycled acrylic. It's made from our waste, re-cast and therefore very suitable to use into new acrylic tombstones, deal toys, awards and branding products.

Materials | Wood

Wood is a very suitable material to use as a standalone award or gift or add-on such as a base. It can be printed and engraved on very easily and machined into different kind of shapes.

Materials | 3d prints

Made from biodegradable materials, they naturally decompose. SAU stays updated on the latest 3D printing developments, including recycled materials, to enhance our unique products.

Materials | Aluminium

Aluminum, a recyclable material, adds a luxurious touch to our gift production process. Its high-end appearance enhances the look of awards, gifts and branding products.

Materials | Crystal

Crystal, a clear and solid material, is perfect for precise laser engraving of fine details. Its purity brings designs to life and makes it an elegant alternative when 3D printing or acrylic detailing isn't possible.

Custom Packaging

Enhance the presentation of your tombstone with our custom packaging service. We offer tailored solutions to ensure your tombstones are not only protected but also beautifully presented. From elegant boxes to branded packaging, we customize every detail to reflect your brand's identity and elevate the recipient's experience. Make your tombstone truly memorable with our bespoke packaging options.

“

"Eco-Friendly Excellence!"

"SAU's dedication to sustainability is truly impressive. We chose SAU for our custom deal toys, and we were impressed not only by the quality of the products but also by their commitment to eco-consciousness. Knowing that our acrylic creations were crafted with recycled materials made the experience even more satisfying. SAU's sustainable practices set them apart in the industry, and we couldn't be happier with the results."

"Exceptional Craftsmanship and Service!"

"I recently worked with SAU to create custom financial tombstones for our company's milestone achievements. From start to finish, the experience was seamless. SAU's attention to detail and commitment to quality craftsmanship truly set them apart. The final products exceeded our expectations and were met with admiration from all who received them. I highly recommend SAU for anyone looking to elevate their brand with bespoke acrylic creations."
